

# Economy Charging Cart EC32S

Are you looking for a simple, cost effective smart charging cart that can store and charge a variety of classroom devices without breaking the bank? Then you need to consider the EC32S cart, designed by CDI. Our newest budget-friendly solution is perfect for everyday, effortless device management.

**Designed for: Chromebooks and Notebooks up to 15"\***

Ideal for larger classrooms with up to 32 devices, the EC32S is practical and easy on budgets. The cart's compact design makes it easier to transport your mobile devices effortlessly even in the most crowded corridors or smallest spaces.

The EC32S charging system includes superior cable management, 4 power strips with outlets spaced and designed to provide compatibility with almost any A/C Adaptor type as well as enclosures to store power bricks if required. The cart is equipped with the latest in smart charge technology so you will never have to worry about overloading your classroom's circuits, and no matter what devices you are charging, they will always receive the maximum available charge.

Versatile in its usability, the cart is designed to accommodate almost any 15" mobile device in a classroom today.

**\$799 USD**

\* Fits most devices up to 15". Please check with your account manager about the best fit for your devices.
